

# Algonquin Fixed Income 2.0

## The evolution of bond funds.

Fixed income 2.0 was launched to help Canadians get better outcomes from their fixed income investments.

Our approach is simple: rather than hunt for excess returns in lower-quality securities, we add more of the good stuff. In that, we enhance yield and return potential through additional exposure to high-quality, investment-grade credit.

We do so by employing the tools and strategies used by large institutions and banks. The advantage of these strategies is a greater ability to enhance returns and manage risks.

The result is a product that can offer you more from your fixed income with the security of high-quality, transparent, and understandable holdings.

## Fixed Income 2.0.

1. **Target Portfolio Yield: 5 - 7%**  
Enhance yield through exposure to investment-grade credit spreads.
2. **Proactive Duration Management**  
The expertise and tools to proactively hedge and manage interest rate exposures.
3. **Trading Strategies**  
Seek excess returns by capitalizing on inefficiencies within bond markets.

## The Sum of the Parts:

Attractive income and return potential, regardless of the interest rate environment, through high-quality, transparent, and understandable exposures.

- Investment-grade rated portfolio.
- Daily liquidity.
- Quarterly distributions.

## Management Team

**Brian D'Costa** CFA MBA  
Founding Partner.  
President.

**Greg Jeffs** CFA  
Founding Partner.  
Chief Investment Officer.

**Raj Tandon** MA  
Founding Partner.  
Business Development.

**Alexander Schwiersch** CFA  
Partner.  
Portfolio Manager.

## Portfolio Breakdown

## Key Metrics

Portfolio Yield	Interest Rate Duration	Average Term	CR01	Leverage
4.4%	2.9yrs	3.1yrs	5.5bps	1.6x

Portfolio Yield is the weighted average aggregate yield net of borrow cost; IR Duration is an estimate of portfolio sensitivity to 1% change in interest rates; Average Term is weighted average term to maturity of long positions; CR01 is an estimate of portfolio sensitivity for a one basis point change in credit spreads across all credit positions; Leverage based on short positions and borrowed cash as per National Instrument 81-102.
